

Biostratigraphische Verbreitung von Gastropoden im süddeutschen Jura. Zusammengestellt nach Angaben aus Hägele, G. (1997)

Biostratigraphic distribution of gastropods in the jurassic of southern germany. Combined after informations from Hägele, G. (1997)

		Unterer Jura / lower jurassic							Mittlerer Jura / middle jurassic					Oberer Jura / upper jurassic							
		alpha 1	alpha 2	alpha 3	beta	gamma	delta	epsilon	zeta	alpha	beta	gamma	delta	epsilon	zeta	alpha	beta	gamma	delta	epsilon	zeta
Fazies																					
Archaeogastropoda:																					
Euomphalacea																					
Euomphalidae																					
Discohelix	exigua		+																		
Discohelix	sp.						+														
Discohelix	albinatiensis							+													
Nummocalar	angulati		+																		
Nummocalar	coronilla																				+
Korallenkalk																					
Pleurotomariacea																					
Raphistomatidae																					
Sisenna	canalis						+														
Eotomariidae																					
Ptychomphalus	politus	+	+	+																	
Ptychomphalus	sp.			+																	
Ptychomphalus	expansus						-	+													
Ptychomphalus	expansus plicatus							+													
Pleurotomariidae																					
Pleurotomaria	anglica	+	+	+																	
Pleurotomaria	cf. princeps			+																	
Pleurotomaria	turneri				+																
Arietenkalk
